

StarlinePS Enterprises Ltd. Joins Hands with Celloraa Energy Pvt. Ltd. to Establish a 1.2 GW State-of-the-Art Solar Cell Manufacturing Facility in Surat, Gujarat.

Surat, Gujarat | 30-06-2026

In a significant development for India's renewable energy manufacturing sector, **StarlinePS Enterprises Ltd.** has announced a strategic investment of ₹160 Crore in **Celloraa Energy Pvt. Ltd.**, a next-generation renewable energy component manufacturing company focused on establishing advanced Domestic Content Requirement (DCR) compliant solar cell manufacturing capabilities in Surat, Gujarat, India.

The strategic investment marks a major milestone in India's journey to strengthen domestic renewable energy manufacturing and support the nation's vision of achieving energy self-reliance through indigenous clean energy technologies. The investment will support Celloraa Energy's mission to develop world-class solar cell manufacturing infrastructure and contribute to India's rapidly growing renewable energy ecosystem.

As India continues its transition toward becoming a global renewable energy leader, domestic solar manufacturing has emerged as a strategic priority. Government initiatives promoting domestic manufacturing, including the Domestic Content Requirement (DCR) policies and the broader vision of Atmanirbhar Bharat, have accelerated demand for domestically manufactured solar components and strengthened the need for robust manufacturing capabilities within the country.

While the country has significantly expanded its solar module manufacturing capacity, domestic solar cell manufacturing remains a critical area of focus for achieving supply chain independence and strengthening energy security.

Infinite Energy, Eternal Impact.
